NEW IMMUVIEW®READER

PUT IT TO THE TEST

IMMUVIEW®

IMMUVIEW®

HOW TO OBTAIN FAST, OBJECTIVE TEST RESULTS ...

NEW IMMUVIEW® READER – PUT IT TO THE TEST!

The new ImmuView® Reader is a portable, highly flexible, rapid and easy to use test instrument.

Not only is it straightforward to use, but it quickly transfers your results through LIS/LIMs systems.

***Build-in LIS/LIMS** integration for a smooth transfer of test results*

Simple to use interface

WIFI/ETHERNET connection
The reader has build-in WIFI and Ethernet connectivity for extra networking and communication options.

Easy LIS/LIMS integration
The new reader has built-in LIS/LIMS integration. This way you can easily transfer the test result within your systems for the benefits of the patient.

Superior embedded software
The embedded software provides additional tools for further in-depth assay analysis and detailed test type configuration capabilities.

999

Store up to 999 tests
The reader can store up to 999 tests. You can always retrieve previous results. Before the ImmuView® Reader reach the storage limit it will let you know.

1-2-3

Easy interface
The reader has been designed with the user in mind. Just press test and you are ready to run the test.

LCD

3.4" LCD Screen
Large screen on a small reader? No problem. Not only is the LCD screen of superior quality, but you can use it wearing gloves.

Scanner and Printer
The reader can easily be configured with a scanner and printer.

★★★

Reader and strip carrier developed for SSI Diagnostica, by Axxin, a proven expert of POC IVD instrument development
Insert the ImmuView® strip in the strip carrier, and then in the reader. Press "Test" and the results are on the way. Easy.

DIAGNOSE WITH CONFIDENCE

Now you can get rapid results with minimum effort. The new ImmuView® Reader provides quick and automatic analysis of the ImmuView® *S. pneumoniae* & *Legionella* Urinary Antigen Test.

- Two rapid results in one test
- Broad *Legionella* detection
- Easy LIS integration

IMMUVIEW® DETECT MORE THAN SEROGROUP 1 OF *LEGIONELLA*

ImmuView® *Legionella* serogroups - control antigen[1]	
Positive	1 (all monoclonal subtypes)
	2, 3, 4, 5, 6, 7, 11, 12, 13, 14, 15
Negative	8, 9, 10
